

## ICP Medical **PPE Organizers**

ICP Medical's Personal Protection Equipment enhances the safety of healthcare workers, staff and visitors. The PPE Organizer is a convenient dispensing system for personal protection items.

- **Accessible:** The open designs enhance compliance by allowing clinicians to find the exact protection they need instantly. Product availability is easier to verify and simplifies restocking.
- **Durable:** High-grade materials will withstand years of harsh treatment and thousands of trips to Central Supply for restocking.
- **Customizable:** Fully customizable to organize and dispense exactly what you want, where you want it. In addition to storing the standard gloves, masks and gowns, these organizers can be fitted with sign clips, coat hooks, supply bins or other brackets to hold anything you may need.

 **ICP Medical**

## Select from these Standard Configurations as well as Custom Designs

Personal Protection Equipment Organizers are adjustable for inevitable product or manufacturer packaging changes and can be mobile or permanently mounted on walls, doors or glass.
